Adventure together, learn forever

January 2025

Castle Primary School welcomes initiatives to reduce carbon emissions through collective action, innovation and influence.

We are fortunate to have a modern school building, with an Energy Performance rating of C.

Our school has modern efficiencies built-in, including:

- Gas central heating
- Solar panels
- Double glazing

Our waste is separated for recycling and collected by Mid-Devon District Council. This minimises the waste which goes to landfill.

- Dry mixed recyclable materials (plastic, paper, cardboard)
- Food waste
- General waste

We also have boxes at school for collection and recycle of:

- Batteries
- Used plastic pens
- Used printer cartridges

We have a group of pupils called the Eco Warriors and dedicated staff regularly raise the profile of

REDUCE – REUSE - RECYCLE
